

Alphabet Overboard

By Sam Magavern And Will D

MY BINOCULARS

When I need to see the world differently, I place a giant B sideways on my nose.

No, B doesn't help me see more clearly -

GLIB GUB

-in fact, it blurs everything together quite awfully;

like a big mug of Alphabet soup;

but the B's bumble and buzz...

until sight becomes more humble...

...more right.
